

The Visibility System That Makes Opportunities Find You

Phase 1: Position Yourself

Most people talk about everything.

Visible people become known for one thing.

Examples:

- AI for Students
- Career Growth for Freshers
- Freelancing for Designers
- Business Growth for Local Businesses

Rule:

One Person

One Problem

One Solution

Phase 2: Create Visibility Assets

You need content people can discover.

Minimum assets:

- LinkedIn Profile
- Instagram Profile
- Portfolio / Website
- Featured Content Posts

Think:

What appears when someone searches my name?

Phase 3: Publish Daily Proof

Do not only post opinions.

Post proof.

Examples:

- Before/After

- Client Results
- Lessons Learned
- AI Experiments
- Case Studies
- Portfolio Work

Framework:

Experience

→ Lesson

→ Insight

→ Action

Phase 4: Build Recognition

People trust familiarity.

Repeat:

- Same niche
- Same audience
- Same message

Example:

THE DIGITAL NEWS consistently discusses:

- AI Skills
- Career Growth
- Freelancing
- Business Growth

Over time people remember it.

Phase 5: Create Opportunity Magnets

Create resources people want.

Examples:

- Guides

- Templates
- Checklists
- Prompt Libraries
- Frameworks

This is exactly what your AutoDM strategy is doing.

People comment.

They receive value.

Trust grows.
