

THE AI RESUME SYSTEM THAT GETS RECRUITERS TO NOTICE YOU

The Resume System

Instead of telling AI:

Create my resume.

Teach people to give AI five pieces of information every time.

The framework is

Target Job

Your Background

Proof of Skills

Keywords

Output Format

This alone dramatically improves resume quality because AI has proper context.

SYSTEM STEP 1

Define the Target Job

Never build a resume without knowing the exact job.

Prompt

You are an experienced recruiter.

I want to apply for this role:

[Paste Job Title]

Based on this role, identify:

- Top technical skills
- Top soft skills
- Most important keywords

- Recruiter's priorities
- Common reasons candidates are rejected

Present everything in a table.

Example

Job

Data Analyst

AI returns

✓ SQL

✓ Excel

✓ Power BI

✓ Dashboarding

✓ Data Cleaning

✓ Communication

Now the user knows exactly what recruiters want.

SYSTEM STEP 2

Analyze the Job Description

Prompt

Analyze this complete job description.

Identify

- Required skills
- Preferred skills
- Hidden expectations
- ATS keywords
- Most repeated phrases

- Responsibilities
- Measurable achievements expected

Return everything categorized.

Paste the entire JD.

Now AI extracts every important keyword.

SYSTEM STEP 3

Build a Strong Resume Summary

Prompt

Create a professional resume summary.

Information:

Degree:

Experience:

Projects:

Technical Skills:

Achievements:

Career Goal:

Requirements

- Maximum 60 words
- ATS friendly
- Confident
- Professional
- Quantifiable whenever possible

Example

Instead of

Hardworking student looking for opportunities.

AI writes

Computer Science graduate with hands-on experience in Python, SQL, and Power BI through academic projects. Passionate about data-driven decision making and eager to contribute analytical skills to business teams.

Huge difference.

SYSTEM STEP 4

Rewrite Experience Like a Recruiter Wants

Prompt

Rewrite my experience using action verbs.

For every bullet:

- Start with a strong action word.
- Add measurable impact.
- Keep under 20 words.
- ATS friendly.
- Professional tone.

Here is my experience:

[Paste]

Example

Before

Worked on website.

After

Developed a responsive business website that improved user engagement and reduced page load time.

SYSTEM STEP 5

Improve Project Descriptions

Prompt

Rewrite these projects.

For every project include

Problem

Solution

Tools Used

Result

Business Impact

Keep each project under 70 words.

Example

Instead of

Library Management System

AI creates

Built a Library Management System using Java and MySQL to automate book tracking, reducing manual record management through an intuitive interface.

SYSTEM STEP 6

Create ATS Keywords

Prompt

Based on this resume and this job description,

Generate

Top ATS keywords

Technical Skills

Power verbs

Industry keywords

Missing keywords

Prioritize the missing keywords.

Paste

Resume

-

Job Description

Now AI shows what's missing.

SYSTEM STEP 7

Find Resume Weaknesses

Prompt

Act as an HR Manager.

Score my resume out of 100.

Evaluate

Headline

Summary

Experience

Projects

Skills

Achievements

ATS compatibility

Formatting

Impact

Recruiter interest

Tell me exactly how to improve.

This gives users an honest review before they apply.

SYSTEM STEP 8

Make Every Bullet More Powerful

Prompt

Improve every resume bullet.

Rules

Start with a power verb.

Add numbers whenever possible.

Show measurable impact.

Avoid weak words.

Keep each bullet concise.

Example

Before

Responsible for reports.

After

Generated weekly performance reports that improved decision-making for cross-functional teams.

SYSTEM STEP 9

Generate an ATS Skills Section

Prompt

Create a professional Skills section.

Separate into

Technical Skills

AI Tools

Software

Soft Skills

Industry Knowledge

Arrange based on recruiter priority.

Much cleaner than random skill lists.

SYSTEM STEP 10

Final Resume Review

Prompt

You are a Senior Recruiter with 20 years of hiring experience.

Review my resume.

Tell me

Would you shortlist me?

What would concern you?

What would impress you?

What should be removed?

What should be added?

Give a final ATS score out of 100.

This acts as the final quality check before applying.

BONUS PROMPT

Optimize Resume for One Company

You are applying to

Company:

Role:

Here is my resume.

Here is the job description.

Customize my resume specifically for this company.

Keep all information truthful.

Improve wording.

Match ATS keywords.

Increase recruiter appeal.

Highlight the most relevant experience.

Return the final optimized resume.
