

What Message Should You Actually Give?

Not:

✗ "Hi Sir, I am freelancer."

✗ "Please give me work."

✗ Long introductions.

The message should be based on:

Observation → Value → Question

Example #1 (Digital Marketing)

Hi [Name],

I was checking your Instagram page and noticed you're posting consistently.

One thing I observed is that several posts have strong content but very few engagement-focused hooks.

I have a few ideas that may help improve reach and interaction.

Would you like me to share them?

Hi [Name],

I came across your brand online and noticed your visual content is active across multiple platforms.

I had a few ideas that could make the designs look more consistent and premium.

Would you be open to seeing a quick mockup?

Example #3 (Video Editor)

Hi [Name],

I've been following your content and noticed you're creating valuable videos regularly.

I had an idea that could make the first few seconds more engaging and potentially improve watch time.

Would you like me to show you an example?
