

What Is "The AI Workflow That Replaces 5 Hours Of Work Every Week"?

A simple version:

Capture → Organize → Generate → Review → Execute

This works for students, professionals, freelancers, and business owners.

Step 1: Capture Everything

Instead of keeping ideas in your head:

- Tasks
- Notes
- Meeting points
- Content ideas
- Customer requests

Put everything into one place.

Tool:

ChatGPT, Notion, Google Docs, Notes App

Prompt:

Act as my personal productivity assistant.

Organize the following notes into:

1. Urgent Tasks
2. Important Tasks
3. Follow-Ups
4. Ideas
5. Low Priority Tasks

Here are my notes:

[PASTE NOTES]

Step 2: Turn Notes Into Action Plans

Most people collect information.

Few people convert it into actions.

Prompt:

Create a step-by-step action plan from the following information.

Requirements:

- Prioritized tasks
- Estimated time required
- Suggested deadlines
- Quick wins first

Information:

[PASTE INFORMATION]

Step 3: Generate The First Draft

Use AI for:

- Emails
- Reports
- Social media posts
- Client proposals
- Meeting summaries

Prompt:

Act as a professional writer.

Create a first draft based on the following information.

Requirements:

- Clear
- Professional
- Ready to edit
- Save time

Information:

[PASTE INFORMATION]

Step 4: Review With AI

Instead of manually checking everything.

Prompt:

Review the following draft.

Identify:

1. Errors
2. Missing information
3. Areas to improve
4. Simplification opportunities

Draft:

[PASTE DRAFT]

Step 5: Execute

Schedule.

Publish.

Send.

Deliver.

Done.

AutoDM Resource Structure

When someone comments **WORKFLOW**, send:

AI WORKFLOW BLUEPRINT

Step 1:

Capture Everything

Step 2:

Create Action Plan

Step 3:
Generate First Draft

Step 4:
Review With AI

Step 5:
Execute

Bonus:
3 Reusable Prompts Included

Reusable Master Prompt For Future Fridays

Use this whenever you need a new "AI Workflow" lead magnet.

Act as a Productivity Systems Consultant.
