

THE AI CUSTOMER JOURNEY SYSTEM

Goal

Help business owners understand why visitors don't buy and how AI can improve every stage of the customer journey.

The 6-Step AI Customer Journey Framework

STEP 1 — Discover

Question

How do people find your business?

Possible sources:

- Google Search
- Instagram
- Facebook
- LinkedIn
- YouTube
- Referrals
- Ads

AI Prompt

Act as a digital marketing strategist.

My business is:

[Business]

My ideal customer is:

[Audience]

Suggest 20 realistic ways my ideal customer may discover my business online.

Group them into:

- Organic
- Social Media
- Paid
- Referral
- AI Search

Example

Coffee Shop

AI suggests

Google Maps

Instagram Reels

Food bloggers

Nearby searches

Student communities

Office workers

STEP 2 — Attraction

People visit.

Now ask

Why should they stay?

AI improves

Headline

Landing page

Instagram bio

Website copy

First impression

Prompt

Act as a conversion copywriter.

Improve my homepage headline.

Business:

[Business]

Current headline:

[Headline]

Make it

Clear

Benefit-focused

Short

High-converting

Give 10 options.

Example

Instead of

"We Build Websites"

AI suggests

"Websites That Turn Visitors Into Paying Customers"

STEP 3 — Trust

Most businesses lose customers here.

Visitors ask

Can I trust you?

AI helps create

Testimonials

Case studies

FAQs

Success stories

Guarantees

About page

Prompt

Analyze my business.

Suggest everything a first-time customer needs before trusting me.

Create

FAQs

Testimonials to request

Case study outline

Trust badges

Guarantee ideas

Social proof ideas

STEP 4 — Decision

Customer wants to buy

But hesitates.

AI identifies objections.

Prompt

Act as a sales psychologist.

Business:

[Business]

Offer:

[Offer]

Audience:

[Audience]

List

Top 20 buying objections

Then write persuasive responses for each.

Example

Objection

"It's too expensive."

AI creates

Value explanation

Payment option

ROI explanation

Guarantee

STEP 5 — Purchase

Make buying easy.

AI reviews

Checkout

Pricing

Forms

Booking

Buttons

Prompt

Review my purchase process.

Business:

[Business]

Current buying steps:

[paste]

Find

Friction

Confusing steps

Missing trust

Drop-off risks

Suggest improvements.

Example

Instead of

8-page checkout

AI recommends

3 simple steps

Guest checkout

Trust indicators

Clear CTA

STEP 6 — Loyalty

The sale is NOT the end.

Happy customers buy again.

Prompt

Act as a customer retention strategist.

Business:

[Business]

Suggest

Post-purchase emails

Thank-you messages

Referral ideas

Loyalty rewards

Upsells

Cross-sells

Re-engagement campaigns

Birthday campaigns

AI should improve every stage—not just create content.

The Universal AI Prompt

This is the reusable prompt readers can use for any business.

Act as a world-class Customer Journey Consultant.

Analyze my business from a customer's perspective.

Business:

[Describe]

Audience:

[Audience]

Offer:

[Offer]

Current website/social links:

[paste]

Audit my complete customer journey.

Evaluate:

- Discovery
- First Impression
- Website
- Landing Page
- Trust
- Offer
- Pricing
- CTAs
- Purchase Experience
- Follow-up
- Retention
- Referral Opportunities

For every stage provide:

1. What works
2. What's missing
3. Biggest conversion leak
4. Recommended improvements
5. AI-powered ideas
6. Priority (High/Medium/Low)
7. Expected business impact

Finish with a prioritized 30-day action plan.

Example (Fitness Coach)

Business: Online Fitness Coaching

AI might identify:

- Discovery: Weak Instagram SEO.
- Attraction: Homepage doesn't state the transformation.
- Trust: No client testimonials or before/after stories.
- Decision: No FAQ addressing pricing concerns.
- Purchase: Booking form asks for too much information.
- Loyalty: No follow-up email sequence or referral program.

The AI then recommends targeted improvements and ranks them by impact.
